**Cc:** Fahn, Patrick J.  
**Subject:** PU-14-842 Dakota Access - reportable injury #2

Good Afternoon Commissioners:

I received a call from a representative of Dakota Access this afternoon, indicating that a truck driver had cut her finger while performing vehicle maintenance yesterday. The individual was treated off-site for the injury (which required eight stitches) and is back to work today.

Per the Certification to Order Provisions attached to the Order in this case (provision #27, see below), Dakota Access is required to notify the Commission within five business days when an injury to any person occurs.

- 27. Company understands and agrees that it shall advise the Commission of any extraordinary events which take place at the site of the transmission facility, including injuries to any person, or the death of any threatened or endangered species on the site within five business days of such event.**

Please let me know if you would like me to obtain any additional information concerning this incident.

Thanks,  
Julie
